RE: Lakeside Solar Open House

Dear [insert name],

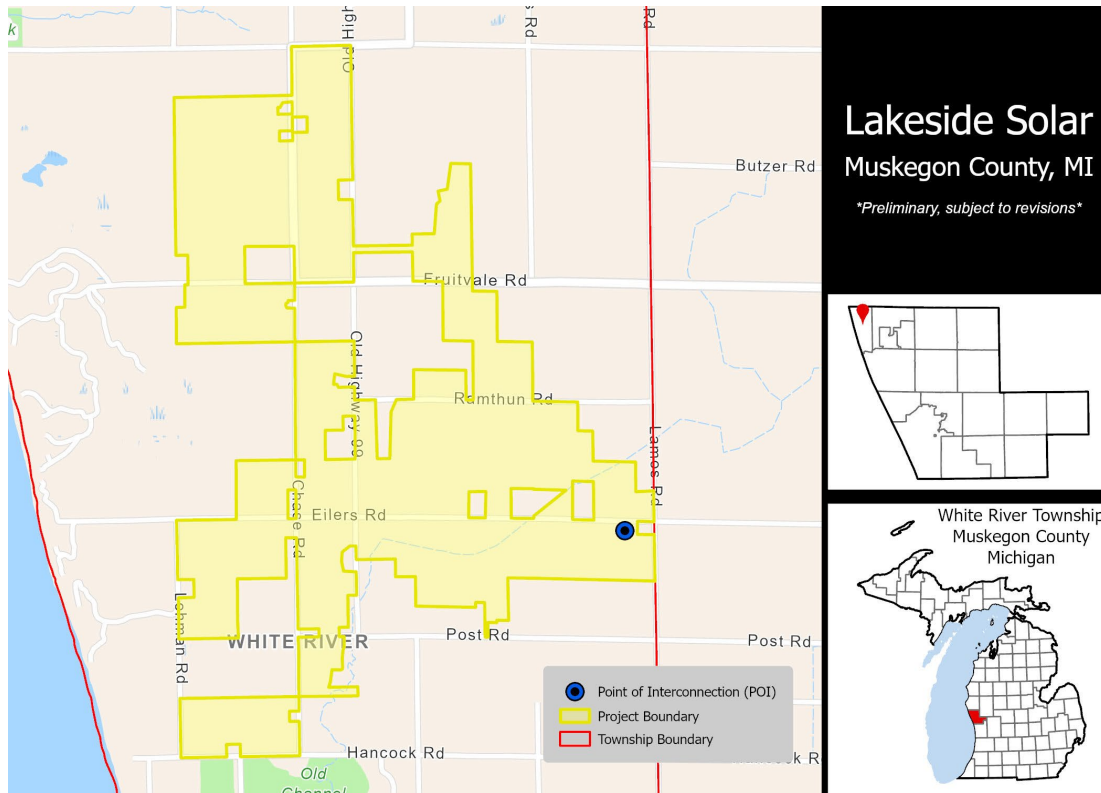

We are contacting you to invite you to an open house for the Lakeside Solar Project, which will be held on Thursday, July 17, 2025, from 5:00 p.m. – 7:00 p.m. at the gymnasium of the Nellie B. Chisholm Middle School (NBC), 4700 Stanton Blvd., Montague, MI 49437. The purpose of this open house is to notify the public about the Project and offer an opportunity for the White River Township and Muskegon County communities to interact with the National Grid Renewables team and industry experts to learn about the proposed project, solicit feedback and ask questions.

Information about the Project developer, facility location, construction process, environmental studies, and economic benefits of the project will be presented at various stations and representatives from the Project, including a variety of subject matter experts will be available for one-on-one conversation. Written comments from the public will be collected at the open house and considered.

About the Project

The Lakeside Solar Project is a proposed up to 200 megawatt (MW) solar energy project under development in White River Township in Muskegon County. The Project will maximize energy production from solar resources to deliver electricity to the regional transmission system. The Project is being developed by Lakeside Solar, LLC, a subsidiary of National Grid Renewables Development, LLC.

The parcels being considered for development total approximately 1,575 acres. Within this area, there will be separate fenced areas containing clusters of photovoltaic (PV) panels as well as interconnection facilities. Solar panels will NOT cover 1,575 acres in continuity.

Preliminary desktop analysis indicates you may be able to see portions of the proposed project from your residence. We kindly request that you contact our team to set up a one-on-one meeting to discuss this further.

We look forward to continuing conversations about the Lakeside Solar Project with you and your community! Please contact us directly by emailing lakeside@nationalgridrenewables.com or calling us at: 952.988.9000.

Sincerely,

Kendra Harrington

RE: Lakeside Solar, LLC Project Development

Dear Neighbor,

We are reaching out to share some key updates about the Lakeside Solar Project:

- Lakeside Solar, LLC has submitted a Special Land Use Permit (SLUP) application to White River Township, initiating the 120-day review period as of 9/16/2025.
- White River Township will conduct its evaluation within this timeframe reaching a decision/vote by 1/14/2026.
- The Lakeside Solar SLUP application, Q&A log, INTERACTIVE project map and additional educational materials are available on the project website:

<https://geronimopower.com/in-development/lakeside-solar-project/>

Next Steps:

- The Planning Commission will hold a public hearing or potentially multiple public hearings during the review process.
- Then, the Planning Commission will vote on a recommendation to the Township Board after the public hearing(s) have closed. A vote could happen at the next regular meeting or at a properly noticed special meeting.
- Lastly, the Township Board will subsequently schedule a vote during a regular meeting or properly noticed special meeting to approve, deny or approve with conditions.

If you have any questions or would like to connect with our team, please don't hesitate to email us at lakeside@geronimopower.com or call 952.988.9000. Our staff is always happy to assist you and provide any information you may need.

Sincerely,

Kendra Harrington
Manager, Project Development

RE: Lakeside Solar Project Update

Dear Name,

We hope you had a wonderful holiday season!

As you perhaps already know, on January 8, 2025, the White River Township Planning Commission "approved" the Lakeside Solar SLUP application with 52 conditions, including a requirement to relocate the entire project to an overlay district on property owned by a non-participating landowner (or petition for rezoning of participating parcels to the overlay district). As a result, because Lakeside Solar's SLUP application fully complies with the standards outlined in Public Act 233 of 2023, Lakeside will file an application with the Michigan Public Service Commission (MPSC). Upon receiving and then deeming an application complete, the MPSC must either approve or deny the application within one year.

As always, you can stay informed and learn about the Lakeside Solar project by visiting the following website:

<https://geronimopower.com/in-development/lakeside-solar-project/>

If you have any questions or would like to connect with our team, please don't hesitate to email us at lakeside@geronimopower.com or call 952.988.9000.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kendra".
